

**Nursing and Midwifery Council
Investigating Committee**

**Interim Order Review Meeting
Monday 4 December 2023**

Virtual Meeting

Name of Registrant:	Janine Wray
NMC PIN	10J0091N
Part(s) of the register:	Registered Nurse – Sub Part 1 Adult Nursing (Level 1) – 22 October 2010
Relevant Location:	Armagh City, Banbridge and Craigavon
Panel members:	Katriona Crawley (Chair, lay member) Matthew Burton (Lay member) Judith Francois (Registrant member)
Hearings Coordinator:	Audrey Chikosha
Interim order to be reviewed:	Interim suspension order (18 months)
Outcome of review:	Interim suspension order confirmed

Decision and reasons on interim order

The panel decided to confirm the current interim suspension order.

Unless Mrs Wray's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim suspension order at this meeting and Mrs Wray will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Mrs Wray will be invited to attend in person, send a representative on Mrs Wray's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim suspension order, or it may replace it with an interim conditions of practice order.

Even if Mrs Wray does not request a hearing, where there has been a material change of circumstances that might mean that the order should be revoked or replaced, a panel will review the order at a hearing to which Mrs Wray and her representative will be invited to attend.

This decision will be confirmed to Mrs Wray in writing.

That concludes this determination.
