

**Nursing and Midwifery Council
Investigating Committee**

**Interim Order Review Meeting
Monday, 8 April 2024**

Virtual Meeting

Name of Registrant:	Jane Maureen Annabel Barker
NMC PIN	10F0505E
Part(s) of the register:	Adult Registered Nurse (Sub Part One) Adult Nursing – Level 1, 23 September 2011
Relevant Location:	Essex
Panel members:	Angela Williams (Chair, lay member) Sue Gwyn (Registrant member) Niall McDermott (Lay member)
Hearings Coordinator:	Audrey Chikosha
Interim order to be reviewed:	Interim suspension order (18 months)
Outcome of review:	Interim suspension order confirmed

Decision and reasons on interim order

The panel decided to confirm the current interim suspension order

Unless Miss Barker's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim suspension order at this meeting and Miss Barker will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Miss Barker will be invited to attend in person, send a representative on Miss Barker's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim suspension order or it may replace it with an interim conditions of practice order.

Even if Miss Barker does not request a hearing, where there has been a material change of circumstances that might mean that the order should be revoked or replaced, a panel will review the order at a hearing to which Miss Barker and her representative will be invited to attend.

This decision will be confirmed to Miss Barker in writing.

That concludes this determination
