

**Nursing and Midwifery Council
Investigating Committee**

**Interim Order Review Meeting
Monday, 17 November 2025**

Virtual Meeting

Name of Registrant:	Sara Ruth Coleman
NMC PIN:	21C1369E
Part(s) of the register:	Registered Nurse – Sub Part 1 Mental Health Nurse (Level 1) – 27 September 2021
Relevant Location:	Manchester
Panel members:	Mahjabeen Agha (Chair, lay member) Ian Hanson (Lay member) Sue Gwyn (Registrant member)
Hearings Coordinator:	Khatra Ibrahim
Interim order to be reviewed:	Interim suspension order (18 months)
Outcome of review:	Interim suspension order confirmed

Decision and reasons on interim order

The panel decided to confirm the current interim suspension order

Accordingly, the panel was satisfied that the order remains necessary on the same grounds and for the same reasons as previously stated by the Investigating Committee panel at the last review on 17 June 2025.

Unless there has been a material change of circumstances, a panel will review the interim suspension order at an administrative meeting within the next six months. The reviewing panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the order at this meeting and Miss Coleman will be notified of that panel's decision in writing following that meeting.

Alternatively, Miss Coleman is entitled to have the interim suspension order reviewed at a hearing. This means that Miss Coleman will be able to attend and make representations, send a representative on her behalf or submit written representations about whether the order continues to be necessary. Miss Coleman must inform her case officer if she would like the interim suspension order to be reviewed at a hearing.

Even if Miss Coleman does not request a hearing, where there has been a material change of circumstances that might mean that the order should be revoked or replaced, a panel will review the order at a hearing to which Miss Coleman and her representative will be invited to attend.

This decision will be confirmed to Miss Coleman in writing.

That concludes this determination.
