## Nursing and Midwifery Council Investigating Committee

## Interim Order Review Hearing Tuesday 23 September 2025

## Virtual Hearing

Carla Louise Simone Dekowski Name of Registrant: **NMC PIN:** 15F0143E Part(s) of the register: Registered Nurse – Sub Part 1 Adult Nursing – 21 September 2015 **Relevant Location:** Bournemouth, Christchurch and Poole Panel members: Kiran Gill (Chair, Lay member) (Registrant member) Michelle Mello Alison Fisher (Lay member) **Legal Assessor:** Graeme Henderson **Hearings Coordinator:** Emma Norbury-Perrott **Nursing and Midwifery Council:** Represented by Sophia Ewulo, Case Presenter Miss Dekowski: Not present and not represented at this hearing Interim order to be reviewed: Interim conditions of practice order (18 months) Outcome of review: Interim conditions of practice order

replaced with suspension order

## Decision and reasons on interim order

The panel decided to replace the current interim conditions of practice order with an interim suspension order.

Unless Miss Dekowski's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the NMC to confirm the interim suspension order at this meeting and Miss Dekowski will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Miss Dekowski will be invited to attend in person, send a representative on Miss Dekowski's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim suspension order or it may replace it with an interim conditions of practice order.

This will be confirmed to Miss Dekowski in writing.

That concludes this determination.
