

Nursing and Midwifery Council

Agreed Removal Decision

Registrant: Margaret Nyazika

PIN: 99E0291E

Part(s) of the register: Registered Nurse - Adult Nursing
Registered Nurse – Mental Health

Relevant Location: Somerset and Gloucestershire

On 2 October 2019 we received a referral raising a concern about Margaret Nyazika's fitness to practise. It's alleged that between January and September 2019 while working as an agency nurse at two different NHS Trusts she:

- attempted to administer medication to a patient who appeared asleep
- created an electronic record with incorrect patient details which led to emergency services attending the wrong address
- left a medication trolley unlocked and unattended
- administered the wrong amount of medication to two patients
- slept while undertaking one to one observations of a patient
- while escorting a patient under one to one observation, allowed them to lock themselves in a bathroom where they were able to self-harm.

Margaret Nyazika doesn't admit the concerns that have been raised.

We investigated the issue and the matter was referred to the Fitness to Practise Committee. No allegation against Margaret Nyazika has yet been found substantively proved by one of our statutory committees.

On 12 July 2025 we received an application from Margaret Nyazika for agreed removal from the NMC register.

ASSISTANT REGISTRAR'S DECISION

As an Assistant Registrar, I have delegated authority to make decisions about agreed removal and have agreed to removal from the NMC register in this case.

In accordance with Rule 14 of the Nursing and Midwifery Council (Education, Registration and Registration Appeals) Rules 2004, in considering Margaret Nyazika's application for agreed removal, I've taken into account:

- Margaret Nyazika's agreed removal application and supporting documents
- documents obtained during the investigation of the case
- reasons for referring the case to the Fitness to Practise Committee
- the interests of Margaret Nyazika
- the public interest.

We sought to contact the person who made the allegation against Margaret Nyazika for their comments on the application for agreed removal. No comments were received within a reasonable period.

I'm satisfied that:

- Margaret Nyazika no longer intends to work as a registered nurse
- although serious, taking all of the information into account, the allegations against Margaret Nyazika aren't likely to result in a striking-off order
- there isn't an overriding public interest in these concerns being considered by a fitness to practise panel and the public confidence can be maintained by agreeing to removal
- there are no other good reasons requiring us to consider the allegations further at this time
- the public interest is best served by agreeing the application for removal and enabling Margaret Nyazika to leave the NMC register.

We'll publish a record of this decision for twelve months from the date of the decision, 18 September 2025. In the event that Margaret Nyazika seeks readmission to the register, we may consider the matters that led to this agreed removal further.
