## Decision and reasons on interim order

The panel decided to confirm the current interim conditions of practice order.

  - e) communication
  - f) symptom management and communication
  - g) discharge process
5. Prior to any review you must obtain a report from your line manager and/or supervisor which comments on your general conduct and performance including but not limited to:
- a) medication management and administration
  - b) record keeping
  - c) moving and handling
  - d) prioritisation of patient's needs
  - e) communication

This must be sent to your NMC case officer.

6. You must keep the NMC informed about anywhere you are working by:
- a) Telling your case officer within seven days of accepting or leaving any employment.

Unless Ms Hazel's case has already been concluded or there has been a material change of circumstances, a panel will review the interim conditions of practice order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim conditions of practice order at this meeting and Ms Hazel will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Ms Hazel will be invited to attend in person, send a representative on her behalf or submit written representations for the panel to consider. At any such review hearing, the panel may revoke the interim order, it may confirm the interim conditions of practice order or it may replace it with an interim suspension order.

The NMC Case Examiners are yet to decide whether there is a case to answer in relation to the allegations made against Ms Hazel. The NMC will write to Ms Hazel when the case is ready for the next stage of the fitness to practise process.

This will be confirmed to Ms Hazel in writing.

That concludes this determination.
