

Nursing and Midwifery Council

Agreed Removal Decision

Registrant: Julia Siddall

PIN: 84I0811E

Part(s) of the register: Registered Nurse - Adult Nursing

Relevant Location: Derbyshire

On 8 August 2024 we received a referral raising a concern about Julia Siddall's fitness to practise. It's alleged that while working as a Practice Nurse between December 2021 and June 2024, Julia Siddall failed to safeguard patients by:

- failing to undertake appointments
- failing to record and/or escalate missed appointments
- recording appointments as complete when no contact had been made with the patients.

Julia Siddall accepts that she failed to undertake some telephone appointments with patients. She has said that her workload was complex and she wasn't given adequate time to complete all of her work to the necessary standard of care.

We investigated the issue and the matter was referred to the Fitness to Practise Committee. No allegation against Julia Siddall has yet been found substantively proved by one of our statutory committees.

On 5 February 2026 we received an application from Julia Siddall for agreed removal from the NMC register.

ASSISTANT REGISTRAR'S DECISION

As an Assistant Registrar, I have delegated authority to make decisions about agreed removal and have agreed to removal from the NMC register in this case.

In accordance with Rule 14 of the Nursing and Midwifery Council (Education, Registration and Registration Appeals) Rules 2004, in considering Julia Siddall's application for agreed removal, I've taken into account:

- Julia Siddall's agreed removal application and correspondence about the concerns
- reasons for the decision to send the case to the Fitness to Practise Committee
- documents obtained during the investigation of the case
- the interests of Julia Siddall
- the public interest.

We contacted the person who made the allegation against Julia Siddall for their comments on the application for agreed removal. They confirmed that they had no comments to make.

I'm satisfied that:

- Julia Siddall no longer intends to work as a registered nurse
- the allegations against Julia Siddall aren't likely to result in a striking-off order
- there are no other good reasons requiring us to consider the allegations further at this time
- the public interest is best served by agreeing the application for removal and enabling Julia Siddall to leave the NMC register.

We'll publish a record of this decision for twelve months from the date of the decision, **17 February 2026**. In the event that Julia Siddall seeks readmission to the register, we may consider the matters that led to this agreed removal further.
