

**Nursing and Midwifery Council
Investigating Committee**

**Interim Order Review Meeting
20 May 2026**

Virtual Meeting

Name of Registrant:	Monisola Ajayi
NMC PIN:	23B1344E
Part(s) of the register:	Registered nurse – sub part 1 Adult nursing (level 1) – 28 September 2023
Relevant Location:	Kent
Panel members:	Godfried Attafua (Chair, Registrant member) Georgia Kontosorou (Registrant member) Mandy Kilpatrick (Lay member)
Hearings Coordinator:	John Kennedy
Interim order to be reviewed:	Interim conditions of practice order (18 months)
Outcome of review:	Interim conditions of practice order confirmed

Decision and reasons on interim order

The panel decided to confirm the current interim conditions of practice order.

Accordingly, the panel was satisfied that the order remains necessary on the same grounds and for the same reasons as previously stated by the Investigating Committee panel at the last review on 17 December 2025.

Unless there has been a material change of circumstances, a panel will review the interim conditions of practice order at an administrative meeting within the next six months. The reviewing panel will be invited by the NMC to confirm the order at this meeting and Ms Ajayi will be notified of that panel's decision in writing following that meeting.

Alternatively, Ms Ajayi is entitled to have the interim conditions of practice order reviewed at a hearing. This means that Ms Ajayi will be able to attend and make representations, send a representative on her behalf or submit written representations about whether the order continues to be necessary. Ms Ajayi must inform her case officer if she would like the interim conditions of practice order to be reviewed at a hearing.

Even if Ms Ajayi does not request a hearing, where there has been a material change of circumstances that might mean that the order should be revoked or replaced, a panel will review the order at a hearing to which Ms Ajayi and her representative will be invited to attend.

This decision will be confirmed to Ms Ajayi in writing.

That concludes this determination.
