Decision and reasons on interim order

The panel decided to confirm the current interim conditions of practice order.

The panel was of the view that the public would remain suitably protected by the implementation of the following conditions:

For the purpose of these conditions, 'employment' and 'work' mean any paid or unpaid post in a nursing, midwifery or nursing associate role. Also, 'course of study' and 'course' mean any course of educational study connected to nursing, midwifery or nursing associates.

1. [PRIVATE]
2. You must limit your practice as a registered nurse to a single substantive employer. This should not be an agency.
3. [PRIVATE]
4. [PRIVATE]
5. [PRIVATE]

 - a. Any current or future employer.
 - b. Any educational establishment.
 - c. Any other person(s) involved in your retraining and/or supervision required by these conditions.

The panel decided to confirm this interim conditions of practice order and it will run for the remainder of the current interim order.

Unless Ms Briand's case has already been concluded, this interim order must be reviewed before the end of the next six months and every six months thereafter. Additionally, Ms Briand or the NMC may ask for the interim order to be reviewed if any new evidence becomes available that may be relevant to the interim order.

At any review, the reviewing panel may revoke the interim order or any condition of it, it may confirm the interim conditions of practice order, or vary any condition of it, or it may replace the interim conditions of practice order with an interim suspension order.

In certain circumstances, it may be possible for the interim conditions of practice order to be reviewed by a reviewing panel at an administrative meeting. Ms Briand's case officer will write to her about this in due course.

A panel of the Fitness to Practise Committee has still to deal with the allegations made against Ms Briand. The NMC will keep Ms Briand informed of developments in relation to that issue.

This will be confirmed to Ms Briand in writing.

That concludes this determination.
