

**Nursing and Midwifery Council  
Investigating Committee**

**Interim Order Review Meeting  
Friday, 22 May 2026**

Virtual Meeting

<b>Name of Registrant:</b>	<b>Sophie Maria Lang</b>
<b>NMC PIN:</b>	24K0678E
<b>Part(s) of the register:</b>	Registered Nurse Adult RNA – February 2025
<b>Panel members:</b>	John Anderson (Chair, lay member) Elaine Bowden (Registrant member) Wendy West (Lay member)
<b>Hearings Coordinator:</b>	Adaobi Ibuaka
<b>Interim order to be reviewed:</b>	Interim conditions of practice order (18 months)
<b>Outcome of review:</b>	<b>Interim conditions of practice order confirmed</b>

## **Decision and reasons on interim order**

The panel decided to confirm the current interim conditions of practice order.

Unless Miss Lang's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the Nursing and Midwifery Council (NMC) to confirm the interim conditions of practice order at this meeting and Miss Lang will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing which Miss Lang will be invited to attend in person, send a representative on Miss Lang's behalf or submit written representations for the panel to consider. At any such review hearing the panel may revoke the interim order, it may confirm the interim conditions of practice order or it may replace it with an interim suspension order.

The NMC Case Examiners are yet to decide whether there is a case to answer in relation to the allegations made against Miss Lang. The NMC will write to Miss Lang when the case is ready for the next stage of the fitness to practise process.

This will be confirmed to Miss Lang in writing.

That concludes this determination.
