Nursing and Midwifery Council

Agreed Removal Decision

Registrant: Gary Baron

PIN: 11A1015E

Part(s) of the register: Registered Nurse - Adult Nursing

Relevant Location: Greater Manchester

On 2 May 2024 we received a referral raising a concern about Gary Baron's fitness to practise. It's alleged that Gary Baron failed to demonstrate the standards of knowledge, skill and judgement to practise without supervision due to a health condition.

We referred the matter to the case examiners and we've completed our investigation into the concerns. No allegation against Gary Baron has yet been found substantively proved by one of our statutory committees.

On 27 July 2026 we received an application from Gary Baron for agreed removal from the NMC register.

ASSISTANT REGISTRAR'S DECISION

As an Assistant Registrar, I have delegated authority to make decisions about agreed removal and have agreed to removal from the NMC register in this case.

In accordance with Rule 14 of the Nursing and Midwifery Council (Education, Registration and Registration Appeals) Rules 2004, in considering Gary Baron's application for agreed removal, I've taken into account:

- comments received from the person who made the allegation against Gary Baron
- agreed removal application form and supporting documents
- information obtained during the investigation of the case
- the interests of Gary Baron
- the public interest.

I'm satisfied that:

- Gary Baron no longer intends to work as a registered nurse
- the allegations against Gary Baron aren't likely to result in a striking-off order
- there are no other good reasons requiring us to consider the allegations further at this time
- the public interest is best served by agreeing the application for removal and enabling Gary Baron to leave the NMC register.

We'll publish a record of this decision for twelve months from the date of the decision, **28 September 2026**. In the event that Gary Baron seeks readmission to the register, we may consider the matters that led to this agreed removal further.
