

**Nursing and Midwifery Council
Investigating Committee**

**New Interim Order Hearing
Wednesday 2 September 2026**

Virtual Hearing

Name of Registrant:	Lauren Draper
NMC PIN:	15I0513E
Part(s) of the register:	Registered Nurse - Adult (RNA) 21 September 2015
Relevant Location:	Wirral
Panel members:	Nariane Chantler (Chair, Registrant member) Jenny Gough (Registrant member) Tom Manson (Lay member)
Legal Assessor:	Megan Ashworth
Hearings Coordinator:	Emily Mae Christie
Nursing and Midwifery Council:	Represented by Georgina Lane, Case Presenter
Ms Draper:	Not present and unrepresented
Interim order directed:	Interim suspension order (12 months)

Decision and reasons on interim order

The panel decided to make an interim suspension order for a period of 12 months.

Unless Ms Draper's case has already been concluded or there has been a material change of circumstances, a panel will review the interim suspension order at a review meeting within the next six months and every six months thereafter. A panel will be invited by the NMC to confirm the interim suspension order at this meeting, and Ms Draper will be notified of the panel's decision in writing following that meeting.

Where there has been a material change of circumstances that might mean that the order should be revoked or replaced, or there has been a request for an early review, a panel will review the interim order at a hearing, to which Ms Draper will be invited to attend in person, send a representative on Ms Draper's behalf or submit written representations for the panel to consider. At any such review hearing, the panel may revoke the interim order, it may confirm the interim suspension order, or it may replace it with an interim conditions of practice order.

The NMC Case Examiners are yet to decide whether there is a case to answer in relation to the allegations made against Ms Draper. The NMC will write to Ms Draper when the case is ready for the next stage of the fitness to practise process.

This will be confirmed to Ms Draper in writing.

That concludes this determination.
