Summary of review and findings

The University of Wolverhampton (UoW), faculty of health, education and wellbeing (the faculty) present a major modification to the pre-registration nursing programme approved by the Nursing and Midwifery Council (NMC) on 2 August 2019. A modification to the approved programme was approved by the NMC on 14 January 2021. The major modification is to approve a one-year, full-time, postgraduate diploma route in adult and mental health nursing. Recognition of prior learning (RPL) is considered against years one and two of the programme for NMC registered nurses to gain a second field of nursing registration.

A teleconference with practice learning partners (PLPs) and the programme team confirm that the additional routes will further strengthen the regional nursing workforce requirement to help meet people's health and social care needs. This also provides the opportunity for existing nurse graduates to study at academic level seven.

The programme documentation and discussion with PLPs confirm that there's evidence of collaborative and effective partnership working between the UoW and key stakeholders. There's documentary evidence that stakeholders including PLPs, service users and carers (SUCs) and students contribute to the design development, delivery, assessment and evaluation of the programme.

Documentary evidence and discussion with the programme team and PLPs confirm that processes are in place to respond to concerns raised by systems regulators, including Care Quality Commission (CQC) reports. There's a partnership approach to ensure that student practice-based learning isn't compromised.

UoW is part of the Midlands, Yorkshire and east of England practice learning group (MYEPLG). MYEPLG provide a consistent approach to the implementation of the Standards for student supervision and assessment (SSSA) (NMC, 2018) across regional practice learning environments. The established pan-Midlands, Yorkshire and east practice assessment document (MYEPAD) and ongoing achievement record (OAR) will be adopted for the proposed routes.

The Standards framework for nursing and midwifery education (SFNME) (NMC, 2018) and the SSSA aren't met at programme level.

The programme is recommended to the NMC for approval subject to one NMC condition.

Updated 12 October 2021:

The programme team has provided additional documentation to meet the NMC condition.

The modification is recommended to the NMC for approval.

Recommended outcome of the approval panel		
Recommended outcome	Programme is recommended to the NMC for approval	
to the NMC:	Programme is recommended for approval subject to specific conditions being met	
	Recommended to refuse approval of the programme	
	Effective partnership working: collaboration, culture, communication and resources:	
	None identified.	
	Selection, admission and progression:	
	None identified.	
	Practice learning:	
Conditions:	Condition one: Provide programme documentation that clearly details how simulation-based processes are used to support students to achieve any outstanding programme proficiencies. (SFNME R3.4; SSSA R6.3; Standards for pre-registration nursing programmes (SPNP) (NMC, 2018) R3.4)	
	Assessment, fitness for practice and award:	
	None identified.	
	Education governance: management and quality assurance:	
	None identified.	
Date condition(s) to be met:	12 October 2021	

	IIIAODOITAED
Recommendations to enhance the programme delivery:	None identified.
Focused areas for future monitoring:	None identified.

Programme is recommended for approval subject to specific conditions being met

Commentary post review of evidence against conditions: Additional programme documentation provides evidence that the condition is met.

A detailed plan demonstrates how strategic and operational simulation-based processes are used to support students to achieve outstanding programme proficiencies. Condition one is met.

The modification is recommended for approval.

made to NMC:	Recommended to refuse approval of the programme	
Date condition(s) met:	12 October 2021	

Section three

NMC Programme standards
Please refer to NMC standards reference points:
Standards for pre-registration nursing programmes (NMC, 2018)
Future nurse: Standards of proficiency for registered nurses (NMC, 2018)
Standards framework for nursing and midwifery education (NMC, 2018)
Standards for student supervision and assessment (NMC, 2018)
The Code: Professional standards of practice and behaviour for nurses, midwives
and nursing associates (NMC, 2015 updated 2018)
Quality assurance framework for nursing, midwifery and nursing associate
education (NMC, 2020)
<u>QA Handbook</u> (NMC, 2020)

Partnerships

The AEI works in partnership with their practice learning partners, service users, students and all other stakeholders.

Please refer to the following NMC standards reference points for this section:

Standards framework for nursing and midwifery education (NMC, 2018)

Standard 1: The learning culture:

- R1.12 ensure programmes are designed, developed, delivered, evaluated and coproduced with service users and other stakeholders
- R1.13 work with service providers to demonstrate and promote inter-professional learning and working

Standard 2: Educational governance and quality:

- R2.2 all learning environments optimise safety and quality taking account of the diverse needs of, and working in partnership with, service users, students and all other stakeholders
- R2.4 comply with NMC <u>Standards for student supervision and assessment</u>
- R2.5 adopt a partnership approach with shared responsibility for theory and practice supervision, learning and assessment, including clear lines of communication and accountability for the development, delivery, quality assurance and evaluation of their programmes
- R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation
- R2.7 ensure that service users and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

Standard 3: Student empowerment:

- R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs
- R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills
- R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning
- R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

Standard 4: Educators and assessors:

- R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment
- R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment
- R4.10 share effective practice and learn from others

Standard 5: Curricula and assessment:

- R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes
- R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme
- R5.14 a range of people including service users contribute to student assessment

Standards for student supervision and assessment (NMC, 2018)

Standard 1: Organisation of practice learning:

- R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments
- R1.7 students are empowered to be proactive and to take responsibility for their learning
- R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including service users, registered and non-registered individuals, and other students as appropriate

Standard 2: Expectations of practice supervisors:

R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

Standard 3: Practice supervisors: role and responsibilities:

R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

Standard 4: Practice supervisors: contribution to assessment and progression:

R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they are supervising

Standard 7: Practice assessors: responsibilities:

R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

Standard 9: Academic assessors: responsibilities:

R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.

Programme documentation and the modification process provides assurance that the programme is developed with engagement and collaboration from students, SUCs and PLPs. There's assurance that there are effective channels of communication between UoW, PLPs, SUCs and students.

There's a range of practice learning opportunities in place for students to meet the diverse needs of people across the lifespan. Programme documentation and discussion with PLPs confirm that there's sufficient appropriately qualified practice assessors and practice supervisors to provide support for the supervision and assessment of skills and proficiencies in practice learning environments.

UoW have an identified SUC lead who supports and coordinates SUC involvement across all programmes in the faculty. The established 'SUCs contributing to educating students for services' (SUCCESS) group are a fundamental part of the curriculum development process. The SUCCESS group provide lived experiences input to the pre-registration nursing programme. They are also involved in curriculum delivery and student assessment, and they have an active role in the programme's governance structures.

Documentary evidence confirms that students evaluate the programme and that there's processes in place to support them in both theory and practice. The practice learning handbook details the process for raising concerns.

Assurance is provided that the AEI works in partnership with their practice learning
partners, service users, students and all other stakeholders as identified in

Student journey through the programme
Standard 1: Selection, admission and progression
Approved education institutions, together with practice learning partners,
must:
R1.1 Confirm on entry to the programme that students:
R1.1.1 are suitable for their intended field of nursing practice:
adult, mental health, learning disabilities and children's nursing
R1.1.2 demonstrate values in accordance with the Code
R1.1.3 have capability to learn behaviours in accordance with the Code
R1.1.4 have capability to develop numeracy skills required to meet programme outcomes
R1.1.5 can demonstrate proficiency in English language
R1.1.6 have capability in literacy to meet programme outcomes
R1.1.7 have capability for digital and technological literacy to meet programme outcomes.
R1.2 ensure students' health and character are sufficient to enable safe and effective practice on entering the programme, throughout the programme and when submitting the supporting declaration of health and character in line with the NMC's health and character decision-making guidance. This includes satisfactory occupational health assessment and criminal record checks
R1.3 ensure students are fully informed of the requirement to declare immediately
any cautions or convictions, pending charges or adverse determinations
made by other regulators, professional bodies and educational
establishments, and that any declarations are dealt with promptly, fairly and
lawfully
R1.4 ensure the registered nurse responsible for directing the educational
programme or their designated registered nurse substitute are able to provide
supporting declarations of health and character for students who have
completed a pre-registration nursing programme

- R1.5 permit recognition of prior learning that is capable of being mapped to the Standards of proficiency for registered nurses and programme outcomes, up to a maximum of 50 percent of the programme and comply with Article 31(3) of Directive 2005/36/EC (included in annexe one of programme standards document)
- R1.6 for NMC registered nurses permit recognition of prior learning that is capable of being mapped to the Standards of proficiency for registered nurses and programme outcomes that may be more than 50 percent of the programme
- R1.7 support students throughout the programme in continuously developing their abilities in numeracy, literacy, digital and technological literacy to meet programme outcomes, and
- R1.8 ensure that all those enrolled on pre-registration nursing programmes are compliant with Article 31(1) of Directive 2005/36/EC regarding general education length as outlined in annexe one in programme standards document.

Standards framework for nursing and midwifery education specifically R2.6, R2.7, R2.8, R2.10

Proposed transfer of current students to the programme under review Demonstrate a robust process to transfer current students onto the proposed programme to ensure programme learning outcomes and proficiencies meet the Standards for pre-registration nursing programmes (NMC, 2018).

Proposed transfer of current students to the Standards for student supervision and assessment (NMC, 2018).

Demonstrate a robust process to transfer current students onto the Standards for student supervision and assessment (NMC, 2018).

Findings against the standard and requirements

Evidence provides assurance that the following QA approval criteria are met:

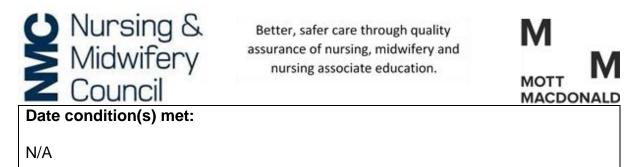

Evidence that selection processes ensure entrants onto the programme are suitable for the intended field of nursing practice and demonstrate values and have capability to learn behaviours in accordance with the Code. Evidence of service users and practitioners involvement in selection processes. (R1.1.1, R1.1.2, R1.1.3)

YES 🖂	NO 🗌
-------	------

Evidence of selection processes, including statements on digital literacy, literacy, numeracy, values-based selection criteria, educational entry standard required, and progression and assessment strategy, English language proficiency criteria specified in recruitment processes (R1.1.4 -R1.1.7). Standard 2: Curriculum

Approved education institutions, together with practice learning partners, must:

- R2.1 ensure that programmes comply with the NMC *Standards framework for nursing and midwifery education*
- R2.2 comply with the NMC Standards for student supervision and assessment
- R2.3 ensure that programme learning outcomes reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.4 design and deliver a programme that supports students and provides exposure across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.5 state routes within their pre-registration nursing programme that allows students to enter the register in one or more of the specific fields of nursing practice: adult, mental health, learning disabilities or children's nursing
- R2.6 set out the general and professional content necessary to meet the Standards of proficiency for registered nurses and programme outcomes
- R2.7 set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.8 ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice
- R2.9 ensure the curriculum provides an equal balance of theory and practice learning using a range of learning and teaching strategies
- R2.10 ensure that programmes delivered in Wales comply with legislation which supports use of the Welsh language
- R2.11 ensure pre-registration nursing programmes leading to registration in the adult field of practice are mapped to the content for nurses responsible for general care as set out in Annexe V.2 point 5.2.1 of Directive 2005/36/EC (included in Annexe 1 of programme standards document)
- R2.12 ensure that all pre-registration nursing programmes meet the equivalent of minimum programme length for nurses responsible for general care in Article 31(3) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)
- R2.13 ensure programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing, and

R2.14 ensure programmes leading to nursing registration and registration in another profession, are of suitable length and nursing proficiencies and outcomes are achieved in a nursing context.

Standards framework for nursing and midwifery education specifically*:* R1.9, R1.13; R2.2, R2.14, R2.15, R2.18, R2.19; R3.1, R3.2, R3.4, R3.9, R3.10, R3.15, R 3.16; R5.1 - R5.16.

Standards for student supervision and assessment specifically: R1.2, R1.3, R1.7, R1.10, R1.11

Standard 3: Practice learning

Approved education institutions, together with practice learning partners, must:

R3.1 provide practice learning opportunities that allow students to develop and meet the *Standards of proficiency for registered nurses* to deliver safe and effective care to a diverse range of people, across the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing R3.2 ensure that students experience the variety of practice expected of registered nurses to meet the holistic needs of people of all ages

R3.3 provide practice learning opportunities that allow students to meet the communication and relationship management skills and nursing procedures, as set out in *Standards of proficiency for registered nurses*, within their selected fields of nursing practice: adult, mental health, learning disabilities and children's nursing R3.4 ensure technology enhanced and simulation-based learning opportunities are used effectively and proportionately to support learning and assessment and pre-registration nursing programmes leading to registration in the adult field of practice comply with Article 31(5) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R3.5 take account of students' individual needs and personal circumstances when allocating their practice learning including making reasonable adjustments for students with disabilities

R3.6 ensure students experience the range of hours expected of registered nurses, and

R3.7 ensure that students are supernumerary.

Standards framework for nursing and midwifery education, specifically: R1.1, R1.3, R1.5; R2.9, R2.11; R3.3, R3.5, R 3.7, R3.16; R5.1, R5.7, R5.10, R5.12

Standards for student supervision and assessment, specifically: R1.1 – R1.11

Findings against the standard and requirements

Provide an <u>evaluative summary</u> from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.

• Evidence that the practice learning opportunities allow students to develop and meet the *Standards of proficiency for registered nurses* to deliver safe

Standard 4: Supervision and assessment

Approved education institutions, together with practice learning partners, must:

- R4.1 ensure that support, supervision, learning and assessment provided complies with the NMC Standards framework for nursing and midwifery education
- R4.2 ensure that support, supervision, learning and assessment provided complies with the NMC Standards for student supervision and assessment
- R4.3 ensure they inform the NMC of the name of the registered nurse responsible for directing the education programme
- R4.4 provide students with feedback throughout the programme to support their development
- R4.5 ensure throughout the programme that students meet the *Standards of proficiency for registered nurses* and programme outcomes for their fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R4.6 ensure that all programmes include a health numeracy assessment related to nursing proficiencies and calculation of medicines which must be passed with a score of 100%
- R4.7 ensure that students meet all communication and relationship management skills and nursing procedures within their fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R4.8 assess students to confirm proficiency in preparation for professional practice as a registered nurse
- R4.9 ensure that there is equal weighting in the assessment of theory and practice
- R4.10 ensure that all proficiencies are recorded in an ongoing record of achievement which must demonstrate the achievement of proficiencies and skills set out in *Standards of proficiency for registered nurses*, and
- R4.11 ensure the knowledge and skills for nurses responsible for general care set out in Article 31(6) and the competencies for nurses responsible for general care set out in Article 31(7) of Directive 2005/36/EC for pre-registration

nursing programmes leading to registration in the adult field of practice have been met. (included in Annexe 1 of programme standards document)

Standards framework for nursing and midwifery education, specifically: R2.11; R3.5, R3.6, R 3.8, R3.11, R3.13, R3.14, R3.17; R4.1, R4.2, R4.3, R4.4, R4.5, R4.6, R4.8, R4.11; R5.9

Standards for student supervision and assessment, specifically R4.1 – R4.11

Findings against the standards and requirements

Provide an <u>evaluative summary</u> from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met

There is evidence of how the programme will ensure how support, supervision, learning and assessment provided complies with the NMC Standards framework for nursing and midwifery education. (R4.1)
 MET X NOT MET X

R4.1 is met. Unchanged through this modification.

• There is evidence of how the *Standards for student supervision and assessment* are applied to the programme. There are processes in place to identify the supervisors and assessor along with how they will be prepared for their roles. (R4.2)

R4.2 is met. Unchanged through this modification. Evidence provides assurance that the following QA approval criteria are met:

 There are processes in place to ensure the NMC is informed of the name of the registered nurse responsible for directing the education programme (R4.3)

YES 🖂	NO 🗌

Standard 5: Qualification t	o be awarded		

Approved education institutions, together with practice learning partners, must:

- R5.1 ensure that the minimum award for a pre-registration nursing programme is a bachelor's degree, and
- R5.2 notify students during and before completion of the programme that they have five years to register their award with the NMC. In the event of a student failing to register their qualification within five years they will have to undertake additional education and training or gain such experience as specified in our standards.

Standards framework for nursing and midwifery education, specifically R2.11, R2.20

Findings against the standards and requirements
