Summary of review and findings
The University of Salford (UoS) presents the independent and supplementary nurse prescribing (V300) programme for modification against the Standards for prescribing programmes SPP (Nursing and Midwifery Council (NMC), 2018) and Standards of proficiency for nurse and midwife prescriber (adoption of the Royal Pharmaceutical Society (RPS) competency framework for all prescribers) (NMC, 2018), to include the community practitioner nurse prescribing (V100). This programme will be undertaken as part of the specialist community public health nurse (SCPHN) apprenticeship programme. The V100 award is delivered at academic level seven. The programme is to be delivered within the full-time SCPHN programme in a blended learning format with 65 hours (10 days) of university attendance, online learning and self-directed study and 10 days in the clinical practice setting. The Standards framework for nursing and midwifery education (SFNME) (NMC, 2018) and the Standards for student supervision and assessment (SSSA) (NMC, 2018) remain met at programme level. The major modification is recommended for approval. Two NMC recommendations are made.

R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation

R2.7 ensure that service users and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

Standard 3: Student empowerment:

R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs

R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills

R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning

R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

Standard 4: Educators and assessors:

R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment

R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment

R4.10 share effective practice and learn from others

Standard 5: Curricula and assessment:

R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes

R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme

R5.14 a range of people including service users contribute to student assessment

[Standards for student supervision and assessment](link) (NMC, 2018)

Standard 1: Organisation of practice learning:

R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments

R1.7 students are empowered to be proactive and to take responsibility for their learning

R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including service users, registered and non-registered individuals, and other students as appropriate

Standard 2: Expectations of practice supervisors:
R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

Standard 3: Practice supervisors: role and responsibilities:
R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

Standard 4: Practice supervisors: contribution to assessment and progression:
R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they are supervising

Standard 7: Practice assessors: responsibilities:
R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

Standard 9: Academic assessors: responsibilities:
R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.

Programme documentation and discussion with the programme team confirm evidence of effective partnership working between the school and key stakeholders. There's evidence of engagement with practice learning partners (PLPs), SUCs and students in the development of the programme modification and the planning, recruitment and delivery of the programme. The school has a specific SUC implementation plan and project lead, but there are still decisions to be made as to the extent of the SUCs' involvement in the delivery and evaluation of the V100 programme. There's a well-established SUC group in UoS that are currently involved in the teaching and assessment of other programmes. The programme team are planning to involve this group in other aspects of the V300 programme which will include the V100. The programme team are recommended to continue to monitor and enhance the SUC involvement in the future development, delivery and assessment of the programme. (Recommendation one)

Student journey through the programme

Standard 1: Selection, admission and progression

Approved education institutions, together with practice learning partners, must:

R1.1 ensure that the applicant is a registered nurse (level 1), a registered midwife or a SCPHN before being considered as eligible to apply for entry onto an NMC approved prescribing programme

R1.2 provide opportunities that enable all nurse (level 1), midwife or SCPHN registrants (including NHS, self-employed or non- NHS employed registrants) to apply for entry onto an NMC approved prescribing programme

R1.3 confirm that the necessary governance structures are in place (including clinical support, access to protected learning time and employer support where appropriate) to enable students to undertake, and be adequately supported throughout, the programme

R1.4 consider recognition of prior learning that is capable of being mapped to the *RPS Competency Framework for all Prescribers*

R1.5 confirm on entry that any applicant selected to undertake a prescribing programme has the competence, experience and academic ability to study at the level required for that programme

R1.6 confirm that the applicant is capable of safe and effective practice at a level of proficiency appropriate to the programme to be undertaken and their intended area of prescribing practice in the following areas:

R1.6.1 Clinical/health assessment

R1.6.2 Diagnostics/care management

R1.6.3 Planning and evaluation of care

R1.7 ensure that applicants for V300 supplementary/independent prescribing programmes have been registered with the NMC for a minimum of one year prior to application for entry onto the programme

Note: Education institutions and their practice learning partners may propose to transfer current students onto the new programme to meet the *Standards for prescribing programmes* and *Standards of proficiency for nurse and midwife prescriber (adoption of the RPS Competency Framework for all Prescribers).* If so, evidence must be provided to support this proposed transfer as part of the education institution's mapping process at Gateway 3.

Proposed transfer of current students to the programme under review

Demonstrate a robust process to transfer current students onto the proposed programme to ensure programme learning outcomes and proficiencies meet the Standards for pre-registration midwifery programmes (NMC, 2019).

Proposed transfer of current students to the *Standards for student supervision and assessment* (NMC, 2018).

Demonstrate a robust process to transfer current students onto the *Standards for student supervision and assessment* (NMC, 2018).

MOTT MACDONALD

R2.4.1 stating the general and professional content necessary to meet the programme outcomes

R2.4.2 stating the prescribing specific content necessary to meet the programme outcomes

R2.4.3 confirming that the programme outcomes can be applied to all parts of the NMC register: the four fields of nursing practice (adult, mental health, learning disabilities and children's nursing); midwifery; and specialist community public health nursing

R2.5 ensure that the curriculum provides a balance of theory and practice learning, using a range of learning and teaching strategies

R2.6 ensure that programmes delivered in Wales comply with any legislation which supports the use of the Welsh language

Findings against the standard and requirements

Evidence provides assurance that the following QA approval criteria are met:

- There is evidence that the programme complies with the NMC Standards framework for nursing and midwifery education (R2.1)

  YES ☒   **NO** ☐

- There is evidence that the programme is designed to fully deliver the competencies set out in the RPS *Competency Framework for all Prescribers*, as necessary for safe and effective prescribing practice (R2.2).

  MET ☒   **NOT MET** ☐

R2.3 is met. The students will undertake the same teaching and learning as the students undertaking the V300 programme which also ensures that they receive interprofessional education. Documentary evidence provides mapping of the V100 programme learning outcomes and assessments to the RPS competency framework. The programme also has a number a self-directed learning opportunities which are facilitated through the use of the Health Education England cooperative virtual learning environment (VLE) e-learning modules which are also directly mapped to the RPS competency framework. The portfolio of assessments that take place in the clinical practice contain the RPS competencies which are assessed by the practice assessor.

Evidence provides assurance that the following QA approval criteria are met:

- Evidence of programme outcomes that inform learning in relation to the formulary relevant to the individual's intended scope of prescribing practice (R2.4):
    - stating the general and professional content necessary to meet the programme outcomes
    - stating the prescribing specific content necessary to meet the programme outcomes

Standard 4: Supervision and assessment

Nursing & Midwifery Council

Better, safer care through quality assurance of nursing, midwifery and nursing associate education.

MOTT MACDONALD

Approved education institutions, together with practice learning partners, must:

R4.1 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards framework for nursing and midwifery education*

R4.2 ensure that support, supervision, learning and assessment provided complies with the NMC *Standards for student supervision and assessment*

R4.3 appoint a programme leader in accordance with the requirements of the NMC *Standards framework for nursing and midwifery education.* The programme leader of a prescribing programme may be any registered healthcare professional with appropriate knowledge, skills and experience

R4.4 ensure the programme leader works in conjunction with the lead midwife for education (LME) and the practice assessor to ensure adequate support for any midwives undertaking prescribing programmes

R4.5 ensure the student is assigned to a practice assessor who is a registered healthcare professional and an experienced prescriber with suitable equivalent qualifications for the programme the student is undertaking

R4.5.1 In exceptional circumstances, the same person may fulfil the role of practice supervisor and practice assessor for that part of the programme where the prescribing student is undergoing training in a practice learning setting. In such instances, the student, practice supervisor/assessor and the AEI will need to evidence why it was necessary for the practice supervisor and assessor roles to be carried out by the same person

R4.6 ensure the student is assigned to an academic assessor who is a registered healthcare professional with suitable equivalent qualifications for the programme the student is undertaking

R4.7 provide feedback to students throughout the programme to support their development as necessary for meeting the RPS competencies and programme outcomes

R4.8 assess the student's suitability for award based on the successful completion of a period of practice-based learning relevant to their field of prescribing practice

R4.9 ensure that all programme learning outcomes are met, addressing all areas necessary to meet the RPS competencies. This includes all students:

R4.9.1 successfully passing a pharmacology exam (the pharmacology exam must be passed with a minimum score of 80 percent), and

R4.9.2 successfully passing a numeracy assessment related to prescribing and calculation of medicines (the numeracy assessment must be passed with a score of 100 percent)

Standard 5: Qualification to be awarded

Approved education institutions, together with practice learning partners, must:

R5.1 following successful completion of an NMC approved programme of preparation, confirm that the registered nurse (level 1), midwife or SCPHN is eligible to be recorded as a prescriber, in either or both categories of:

R5.1.1 a community practitioner nurse or midwife prescriber (V100/V150), or

R5.1.2 a nurse or midwife independent/supplementary prescriber (V300)

R5.2 ensure that participation in and successful completion of an NMC approved prescribing programme leads to accreditation at a level equivalent to a bachelor's degree as a minimum award

R5.3 inform the student that the award must be registered with us within five years of successfully completing the programme and if they fail to do so they will have to retake and successfully complete the programme in order to qualify and register their award as a prescriber

R5.4 inform the student that they may only prescribe once their prescribing qualification has been annotated on the NMC register and they may only prescribe from the formulary they are qualified to prescribe from and within their competence and scope of practice
