Summary of review and findings

Kingston University (KU), an approved education institution (AEI), present the independent and supplementary nurse prescribing (V300) programme for modification against the Standards for prescribing programmes (SPP) (Nursing and Midwifery Council (NMC), 2018) and Standards of proficiency for nurse and midwife prescriber (adoption of the Royal Pharmaceutical Society (RPS) competency framework for all prescribers (RPS, 2021)) (NMC, 2018). The original V300 programme was approved by the NMC on 22 July 2019.

This modification visit is undertaken via remote means. Teaching and learning facilities at KU including simulation suites are viewed online in the format of pictures and videos, as is the virtual learning environment.

The AEI presents a modification to run the V300 programme at KU only, following the dissolution of a joint faculty with St. George's, University of London. There are no proposed changes to the programme learning outcomes, structure, delivery or assessment.

The V300 programme is delivered at academic levels six and seven. The current programme is delivered in a blended learning format in both part-time and full-time modes.

The Standards framework for nursing and midwifery education (SFNME) (NMC, 2018) continues to be met at programme level.

The Standards for student supervision and assessment (SSSA) (NMC, 2018) continue to be met at programme level.

The major modification is recommended for approval subject to two university conditions. There are two NMC recommendations and two university recommendations.

Updated 30 March 2022:

The AEI provide evidence to confirm that the two university conditions are met.

The programme is recommended to the NMC for approval.

Recommended outcome of the approval panel

Solution Nursing & Midwifery Council Recommended outcome to the NMC:	Better, safer care through quality assurance of nursing, midwifery and nursing associate education. Programme is recommended to the NMC for approval Programme is recommended for approval subject to specific conditions being met Recommended to refuse approval of the programme	
	Effective partnership working: collaboration,	
	culture, communication and resources: None identified. Selection, admission and progression: None identified.	
	Practice learning:	
	None identified.	
	Assessment, fitness for practice and award:	
Conditions:	None identified.	
	Education governance: management and quality assurance:	
	Condition one: Confirm that an external examiner has been identified and approached to facilitate timely approval and induction. (University condition)	
	Condition two: Address the regulatory and documentary items identified in the addendum to the full validation report. This includes ensuring that clearly articulated programme learning outcomes are included in the programme specification documentation. (University condition)	
Date condition(s) to be met:	30 March 2022	
Recommendations to enhance the programme delivery:	Recommendation one: Continue to strengthen the involvement of service users and carers (SUCs) in	

Nursing & Midwifery Council	Better, safer care through quality assurance of nursing, midwifery and nursing associate education.
	 Recommendation two: Consider how interprofessional teaching and learning can be strengthened in the programme. (SFNME R1.13) Recommendation three: Consider developing resources and additional materials in Canvas for students to engage with during their self-managed learning time, addressing a range of specialities. The team should consider directing students to use their reflections, case studies or their ongoing learning as a space where they would be able to bring their specialism to the forefront. (University recommendation)
	Recommendation four: Review scheduling and time management information to include the anticipated number of hours required to be spent on tasks during students' self-managed learning time. (University recommendation)
Focused areas for future monitoring:	To monitor the implementation of SUC involvement in the programme.

Programme is recommended for approval subject to specific conditions being met		
Commentary post rev	view of evidence against conditions	
The AEI has provided evidence from the chair of the approval panel which confirms the two university conditions are met.		
AEI Observations	Observations have been made by the education institution YES NO	
Summary of observations made, if applicable	The AEI advised that the programme title(s) needed to be amended.	
Final recommendation made to NMC:	Programme is recommended to the NMC for approval Recommended to refuse approval of the programme	

Nursing & Midwifer Council	S. V	Better, safer care through quality assurance of nursing, midwifery and nursing associate education.	
Date condition(s) met:	30	March 2022	

Section three

NMC Programme standards

Please refer to NMC standards reference points

<u>Standards for prescribing programmes</u> (NMC, 2018) <u>Standards of proficiency for nurse and midwife prescriber (adoption of the Royal</u> <u>Pharmaceutical Society (RPS) Competency Framework for all Prescribers)</u> (NMC, 2018) <u>Standards framework for nursing and midwifery education</u> (NMC, 2018) <u>Standards for student supervision and assessment</u> (NMC, 2018) <u>The Code: Professional standards of practice and behaviour for nurses, midwives</u> <u>and nursing associates</u> (NMC, 2015 updated 2018) <u>Quality assurance framework for nursing, midwifery and nursing associate</u> <u>education</u> (NMC, 2020) QA Handbook (NMC, 2020)

Partnerships

The AEI works in partnership with their practice learning partners, service users, students and all other stakeholders.

Please refer to the following NMC standards reference points for this section:

Standards framework for nursing and midwifery education (NMC, 2018)

Standard 1: The learning culture:

- R1.12 ensure programmes are designed, developed, delivered, evaluated and coproduced with service users and other stakeholders
- R1.13 work with service providers to demonstrate and promote inter-professional learning and working

Standard 2: Educational governance and quality:

- R2.2 all learning environments optimise safety and quality taking account of the diverse needs of, and working in partnership with, service users, students and all other stakeholders
- R2.4 comply with NMC <u>Standards for student supervision and assessment</u>
- R2.5 adopt a partnership approach with shared responsibility for theory and practice supervision, learning and assessment, including clear lines of communication and accountability for the development, delivery, quality assurance and evaluation of their programmes
- R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation

R2.7 ensure that service users and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

Standard 3: Student empowerment:

- R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs
- R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills
- R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning
- R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

Standard 4: Educators and assessors:

- R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment
- R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment
- R4.10 share effective practice and learn from others

Standard 5: Curricula and assessment:

- R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes
- R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme
- R5.14 a range of people including service users contribute to student assessment

Standards for student supervision and assessment (NMC, 2018)

Standard 1: Organisation of practice learning:

- R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments
- R1.7 students are empowered to be proactive and to take responsibility for their learning
- R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including service users, registered and non-registered individuals, and other students as appropriate

Standard 2: Expectations of practice supervisors:

R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

Standard 3: Practice supervisors: role and responsibilities:

R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

Standard 4: Practice supervisors: contribution to assessment and progression:

R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they are supervising

Standard 7: Practice assessors: responsibilities:

R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

Standard 9: Academic assessors: responsibilities:

R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.

Documentary evidence and the modification process demonstrate ongoing effective partnership working between KU and all stakeholders including SUCs, practice learning partners (PLPs) and students.

KU is part of the pan-London practice learning group (PLPLG) and therefore collaborates with other AEIs in developing its model for practice learning and student supervision and assessment.

Discussions at the visit evidence the nature of stakeholder involvement in relation to the proposed programme modification. Documentary evidence and findings from the visit confirm established and effective communication processes between PLPs and the AEI to manage recruitment and selection, fitness to practise, raising and escalating concerns and in maintaining and monitoring practice placement quality.

Discussions at the visit and documentary evidence confirm that KU have an implementation plan for the involvement of SUCs in all aspects of the programme. There's a newly established relationship between KU and the Baked Bean

company (a learning disabilities SUC group), but there are still decisions to be made as to the extent of their involvement in the delivery and evaluation of the programme. There's also a well-established SUC group that are currently involved in all aspects of the clinical reasoning module (pre-requisite module) but not the V300 programme. The programme team are planning to involve this group in all aspects of the V300 programme. The programme team are recommended to continue strengthening the engagement of SUCs in the V300 programme. (Recommendation one)

Current students confirm they receive support from the AEI and PLPs. They're aware of the mechanisms to raise concerns and provide feedback on their current programme. Students also speak highly of the support from the programme team and the well-developed learning facilities both physical and online that are available at KU.

The current programme is delivered to nurses and midwives without the involvement of other professional groups. On discussion with students, it's identified they're encouraged to work with other healthcare professionals in the practice setting, but it's also noted that it would be useful to have more interprofessional teaching and learning on the programme. The programme team are currently in discussion with the school of pharmacy and midwifery to look at integrating learning and teaching to strengthen the interprofessional learning on the V300 programme. (Recommendation two)

Assurance is provided that the AEI works in partnership with their practice learning partners, service users, students and all other stakeholders as identified in Gateway 1: <u>Standards framework for nursing and midwifery education</u>

Assurance is provided that the AEI works in partnership with their practice learning partners, service users, students and all other stakeholders as identified in Gateway 2: <u>Standards for student supervision and assessment</u>

Student journey through the programme

Standard 1: Selection, admission and progression

Approved education institutions, together with practice learning partners, must:

- R1.1 ensure that the applicant is a registered nurse (level 1), a registered midwife or a SCPHN before being considered as eligible to apply for entry onto an NMC approved prescribing programme
- R1.2 provide opportunities that enable all nurse (level 1), midwife or SCPHN registrants (including NHS, self-employed or non- NHS employed registrants) to apply for entry onto an NMC approved prescribing programme
- R1.3 confirm that the necessary governance structures are in place (including clinical support, access to protected learning time and employer support where appropriate) to enable students to undertake, and be adequately supported throughout, the programme
- R1.4 consider recognition of prior learning that is capable of being mapped to the RPS Competency Framework for all Prescribers
- R1.5 confirm on entry that any applicant selected to undertake a prescribing programme has the competence, experience and academic ability to study at the level required for that programme
- R1.6 confirm that the applicant is capable of safe and effective practice at a level of proficiency appropriate to the programme to be undertaken and their intended area of prescribing practice in the following areas:
- R1.6.1 Clinical/health assessment
- R1.6.2 Diagnostics/care management
- R1.6.3 Planning and evaluation of care
- R1.7 ensure that applicants for V300 supplementary/independent prescribing programmes have been registered with the NMC for a minimum of one year prior to application for entry onto the programme

Note: Education institutions and their practice learning partners may propose to transfer current students onto the new programme to meet the *Standards for prescribing programmes* and *Standards of proficiency for nurse and midwife prescriber (adoption of the RPS Competency Framework for all Prescribers).* If so, evidence must be provided to support this proposed transfer as part of the education institution's mapping process at Gateway 3.

Proposed transfer of current students to the programme under review Demonstrate a robust process to transfer current students onto the proposed programme to ensure programme learning outcomes and proficiencies meet the <u>Standards for pre-registration midwifery programmes</u> (NMC, 2019).

Proposed transfer of current students to the <u>Standards for student</u> supervision and assessment (NMC, 2018).

Standard 4: Supervision and assessment

Approved education institutions, together with practice learning partners, must:

- R4.1 ensure that support, supervision, learning and assessment provided complies with the NMC <u>Standards framework for nursing and midwifery education</u>
- R4.2 ensure that support, supervision, learning and assessment provided complies with the NMC <u>Standards for student supervision and assessment</u>
- R4.3 appoint a programme leader in accordance with the requirements of the NMC <u>Standards framework for nursing and midwifery education.</u> The programme leader of a prescribing programme may be any registered healthcare professional with appropriate knowledge, skills and experience
- R4.4 ensure the programme leader works in conjunction with the lead midwife for education (LME) and the practice assessor to ensure adequate support for any midwives undertaking prescribing programmes
- R4.5 ensure the student is assigned to a practice assessor who is a registered healthcare professional and an experienced prescriber with suitable equivalent qualifications for the programme the student is undertaking
- R4.5.1 In exceptional circumstances, the same person may fulfil the role of practice supervisor and practice assessor for that part of the programme where the prescribing student is undergoing training in a practice learning setting. In such instances, the student, practice supervisor/assessor and the AEI will need to evidence why it was necessary for the practice supervisor and assessor roles to be carried out by the same person
- R4.6 ensure the student is assigned to an academic assessor who is a registered healthcare professional with suitable equivalent qualifications for the programme the student is undertaking
- R4.7 provide feedback to students throughout the programme to support their development as necessary for meeting the RPS competencies and programme outcomes
- R4.8 assess the student's suitability for award based on the successful completion of a period of practice-based learning relevant to their field of prescribing practice
- R4.9 ensure that all programme learning outcomes are met, addressing all areas necessary to meet the RPS competencies. This includes all students:
- R4.9.1 successfully passing a pharmacology exam (the pharmacology exam must be passed with a minimum score of 80 percent), and

Standard 5: Qualification to be awarded

Approved education institutions, together with practice learning partners, must:

- R5.1 following successful completion of an NMC approved programme of preparation, confirm that the registered nurse (level 1), midwife or SCPHN is eligible to be recorded as a prescriber, in either or both categories of:
- R5.1.1 a community practitioner nurse or midwife prescriber (V100/V150), or
- R5.1.2 a nurse or midwife independent/supplementary prescriber (V300)
- R5.2 ensure that participation in and successful completion of an NMC approved prescribing programme leads to accreditation at a level equivalent to a bachelor's degree as a minimum award
- R5.3 inform the student that the award must be registered with us within five years of successfully completing the programme and if they fail to do so they will have to retake and successfully complete the programme in order to qualify and register their award as a prescriber
- R5.4 inform the student that they may only prescribe once their prescribing qualification has been annotated on the NMC register and they may only prescribe from the formulary they are qualified to prescribe from and within their competence and scope of practice

Findings against the standards and requirements

Evidence provides assurance that the following QA approval criteria are met:

- Processes are in place to ensure following successful completion of an NMC approved programme of preparation, confirm that the registered nurse (level 1), midwife or SCPHN is eligible to be recorded as a prescriber, in either or both categories of:
 - a community practitioner nurse (or midwife) prescriber (V100/V150), or
 - a nurse or midwife independent/supplementary prescriber (V300) (R5.1) YES X NO
- Evidence to ensure that successful participation in and completion of an NMC approved prescribing programme leads to accreditation at a level equivalent to a bachelor's degree as a minimum award (R5.2)
