#### Summary of review and findings

The University of Greenwich (UoG), school of health sciences (the school) within the faculty of education, health and human sciences presents a major modification to the Nursing and Midwifery Council (NMC) approved pre-registration nursing programme. The NMC approved the pre-registration nursing Bachelor of science with honours (BSc (Hons)) full-time and part-time direct entry and four-year apprenticeship routes in the adult, mental health, children's and learning disabilities fields of nursing and the Master of science (MSc) two-year route in all four fields of nursing on 30 November 2020. Fall back awards BSc and postgraduate diploma in all four fields of nursing are also approved by the NMC. A modification to the programme to include Truro and Penrith College as a satellite site for delivery of the adult and mental health BSc (Hons) four-year registration nursing programme was approved by the NMC on 28 July 2021.

The modification request follows an evaluation of the progress of apprenticeship students completing the BSc (Hons) four-year nursing degree apprenticeship route by key stakeholders including employer partners (EPs) and apprentice students during student cohort meetings. An evaluation of apprentice student placement learning demonstrates a four-year programme can be completed full-time over three years. The programme learning outcomes, module learning content and assessments are unchanged. The programme planner demonstrates an equal balance of a minimum of 2,300 hours theory and 2,300 hours practice learning.

NMC approved nursing EPs are: Kent Community Healthcare NHS Foundation Trust, Oxleas NHS Foundation Trust, South London and Maudsley NHS Foundation Trust, South West London and St George's Mental Health NHS Trust, Royal Cornwall Hospitals NHS Trust, Cornwall Partnership NHS Foundation Trust Virgin Care, Bromley Health Care, Coloma Court Care Home, De Beauvoir Surgery, The Huntercombe Group, Nightingale Hammerson and The Priory Group. A teleconference with EPs representatives from South London and Maudsley NHS Foundation Trust and Virgin Care confirms that there's continued commitment to the apprenticeship route. They confirm that they work in partnership with the school and that they've identified a service need for the addition of a BSc (Hons) nursing degree apprenticeship three-year route in the four fields of nursing. EPs in partnership with the programme team have identified that the route offers more flexibility for them and apprentice students. The ability to align placements with a three-year route offers a timelier route to registration and employment.

There's documentary evidence of partnership working with EPs to address any practice learning concerns. EPs confirm that any issues arising from Care Quality Commission (CQC) quality reviews, which impact on practice learning environments are managed through a systematic partnership process. There's

clear evidence of close partnership working between UoG and EPs to manage and mitigate any risks to practice learning.

Arrangements at programme level meet the Standards framework for nursing and midwifery education (SFNME) (NMC, 2018) and the Standards for student supervision and assessment (SSSA) (NMC, 2018).

The modification to the programme is recommended to the NMC for approval.

Recommended outcome of the approval panel

#### **Section three**

#### **NMC Programme standards**

Please refer to NMC standards reference points:

Standards for pre-registration nursing programmes (NMC, 2018)

Future nurse: Standards of proficiency for registered nurses (NMC, 2018)

Standards framework for nursing and midwifery education (NMC, 2018)

Standards for student supervision and assessment (NMC, 2018)

The Code: Professional standards of practice and behaviour for nurses, midwives

and nursing associates (NMC, 2015 updated 2018)

Quality assurance framework for nursing, midwifery and nursing associate

education (NMC, 2020)

QA Handbook (NMC, 2020)

#### **Partnerships**

The AEI works in partnership with their practice learning partners, service users, students and all other stakeholders.

#### Please refer to the following NMC standards reference points for this section:

Standards framework for nursing and midwifery education (NMC, 2018)

#### **Standard 1: The learning culture:**

- R1.12 ensure programmes are designed, developed, delivered, evaluated and coproduced with service users and other stakeholders
- R1.13 work with service providers to demonstrate and promote inter-professional learning and working

#### Standard 2: Educational governance and quality:

- R2.2 all learning environments optimise safety and quality taking account of the diverse needs of, and working in partnership with, service users, students and all other stakeholders
- R2.4 comply with NMC Standards for student supervision and assessment
- R2.5 adopt a partnership approach with shared responsibility for theory and practice supervision, learning and assessment, including clear lines of communication and accountability for the development, delivery, quality assurance and evaluation of their programmes
- R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation
- R2.7 ensure that service users and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

#### **Standard 3: Student empowerment:**

- R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs
- R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills
- R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning
- R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

#### Standard 4: Educators and assessors:

- R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment
- R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment
- R4.10 share effective practice and learn from others

#### Standard 5: Curricula and assessment:

- R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes
- R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme
- R5.14 a range of people including service users contribute to student assessment

Standards for student supervision and assessment (NMC, 2018)

#### Standard 1: Organisation of practice learning:

- R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments
- R1.7 students are empowered to be proactive and to take responsibility for their learning
- R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including service users, registered and non-registered individuals, and other students as appropriate

#### **Standard 2: Expectations of practice supervisors:**

R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

#### Standard 3: Practice supervisors: role and responsibilities:

R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

### Standard 4: Practice supervisors: contribution to assessment and progression:

R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they are supervising

#### Standard 7: Practice assessors: responsibilities:

R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

#### Standard 9: Academic assessors: responsibilities:

R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

#### Findings against the standard and requirements

Provide an <u>evaluative summary</u> about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.

Documentary evidence confirms that there's effective partnership working between the school and EPs at strategic and operational levels. Documentary analysis and discussion with the programme team demonstrates the modification has been undertaken at the request of EPs. There's assurance that the additional apprenticeship route programme structure ensures student apprentices meet the Future nursing: Standards of proficiency for registered nurses (NMC, 2018). There's documentary evidence of consultation with current student apprentices about the changes to the programme during cohort. The programme team confirm that student apprentices were very positive about the option to transfer to a three-year route.

There's a curriculum implementation group in place for all four fields of nursing. EPs and service users and carers (SUCs) attend ongoing development meetings and have contributed to programme changes. Documentary analysis confirms that SUCs contribute to the delivery, assessment and evaluation of the programme across all fields of nursing. The programme team confirms that the SUC contribution will continue in the proposed route and that they'll continue to be updated about their involvement in the programme.

Assurance is provided that the AEI works in partnership with their practice learning partners, service users, students and all other stakeholders as identified in Gateway 1: <u>Standards framework for nursing and midwifery education</u>

### Student journey through the programme

#### Standard 1: Selection, admission and progression

### Approved education institutions, together with practice learning partners, must:

- R1.1 Confirm on entry to the programme that students:
- R1.1.1 are suitable for their intended field of nursing practice:
- adult, mental health, learning disabilities and children's nursing
- R1.1.2 demonstrate values in accordance with the Code
- R1.1.3 have capability to learn behaviours in accordance with the Code
- R1.1.4 have capability to develop numeracy skills required to meet programme outcomes
- R1.1.5 can demonstrate proficiency in English language
- R1.1.6 have capability in literacy to meet programme outcomes
- R1.1.7 have capability for digital and technological literacy to meet programme outcomes.
- R1.2 ensure students' health and character are sufficient to enable safe and effective practice on entering the programme, throughout the programme and when submitting the supporting declaration of health and character in line with the NMC's health and character decision-making guidance. This includes satisfactory occupational health assessment and criminal record checks
- R1.3 ensure students are fully informed of the requirement to declare immediately any cautions or convictions, pending charges or adverse determinations made by other regulators, professional bodies and educational establishments, and that any declarations are dealt with promptly, fairly and lawfully
- R1.4 ensure the registered nurse responsible for directing the educational programme or their designated registered nurse substitute are able to provide supporting declarations of health and character for students who have completed a pre-registration nursing programme
- R1.5 permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes, up to a maximum of 50 percent of the programme and comply with Article 31(3) of Directive 2005/36/EC (included in annexe one of programme standards document)
- R1.6 for NMC registered nurses permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes that may be more than 50 percent of the programme
- R1.7 support students throughout the programme in continuously developing their abilities in numeracy, literacy, digital and technological literacy to meet programme outcomes, and
- R1.8 ensure that all those enrolled on pre-registration nursing programmes are compliant with Article 31(1) of Directive 2005/36/EC regarding general education length as outlined in annexe one in programme standards document.

<u>Standards framework for nursing and midwifery education</u> specifically R2.6, R2.7, R2.8, R2.10

Proposed transfer of current students to the programme under review Demonstrate a robust process to transfer current students onto the proposed programme to ensure programme learning outcomes and proficiencies meet the <u>Standards for pre-registration nursing programmes</u> (NMC, 2018).

Proposed transfer of current students to the <u>Standards for student</u> <u>supervision and assessment</u> (NMC, 2018).

Demonstrate a robust process to transfer current students onto the **Standards for student supervision and assessment** (NMC, 2018).

#### Standard 2: Curriculum

### Approved education institutions, together with practice learning partners, must:

- R2.1 ensure that programmes comply with the NMC *Standards framework for nursing and midwifery education*
- R2.2 comply with the NMC Standards for student supervision and assessment
- R2.3 ensure that programme learning outcomes reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.4 design and deliver a programme that supports students and provides exposure across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.5 state routes within their pre-registration nursing programme that allows students to enter the register in one or more of the specific fields of nursing practice: adult, mental health, learning disabilities or children's nursing
- R2.6 set out the general and professional content necessary to meet the Standards of proficiency for registered nurses and programme outcomes
- R2.7 set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing
- R2.8 ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice
- R2.9 ensure the curriculum provides an equal balance of theory and practice learning using a range of learning and teaching strategies
- R2.10 ensure that programmes delivered in Wales comply with legislation which supports use of the Welsh language
- R2.11 ensure pre-registration nursing programmes leading to registration in the adult field of practice are mapped to the content for nurses responsible for general care as set out in Annexe V.2 point 5.2.1 of Directive 2005/36/EC (included in Annexe 1 of programme standards document)
- R2.12 ensure that all pre-registration nursing programmes meet the equivalent of minimum programme length for nurses responsible for general care in Article 31(3) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)
- R2.13 ensure programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing, and
- R2.14 ensure programmes leading to nursing registration and registration in another profession, are of suitable length and nursing proficiencies and outcomes are achieved in a nursing context.

Standards framework for nursing and midwifery education specifically: R1.9, R1.13; R2.2, R2.14, R2.15, R2.18, R2.19; R3.1, R3.2, R3.4, R3.9, R3.10, R3.15, R 3.16; R5.1 - R5.16.

Standards for student supervision and assessment specifically: R1.2, R1.3, R1.7, R1.10, R1.11
