**Section two**

**Summary of review and findings**

The University of Winchester (UoW) is an established approved education institution (AEI). The UoW school of health and care professions (the school) is seeking approval of a modification to the existing pre-registration nursing programme which was originally approved on 2 September 2019, and subsequently modified to add routes in the children's field of nursing practice and a nursing degree apprenticeship (NDA) in learning disabilities nursing approved on 17 June 2020.

This modification is for three additional routes: registered NDA in adult, child and mental health fields of nursing practice (full-time).

The major modification visit is undertaken remotely during the COVID-19 pandemic.

There's an effective working relationship between the school, their practice learning partners (PLPs) and employer partners (EPs).

The EPs attending the approval visit and supporting the NDA routes are: Southern Health NHS Foundation Trust, Hampshire Hospitals NHS Foundation Trust, Sussex Community NHS Foundation Trust and Portsmouth Hospitals NHS Trust.

All PLPs/EPs tell us of their compliance with the Standards framework for nursing and midwifery education (SFNME) (Nursing and Midwifery Council (NMC), 2018) and Standards for student supervision and assessment (SSSA) (NMC, 2018). They tell us of their commitment to ensure the supernumerary status of pre-registration nursing students undertaking all routes in the programme.

UoW has worked collaboratively with other AEIs in the Wessex region and Health Education England (HEE) to develop and implement the south practice assessment document (PAD), an adapted version of the pan-London PAD PLPAD which incorporates an ongoing achievement record (OAR). The south PAD and OAR are used for the proposed additional routes.

There's evidence of partnership working between UoW and stakeholders including service users and carers (SUCs) (known as experts by experience), students and PLPs/EPs. There's documentary evidence that stakeholders have contributed to the design and development of the programme.

UoW, in partnership with PLPs/EPs, confirm that any issues which arise from Care Quality Commission (CQC) inspection reviews which impact on practice learning environments are managed through a systematic partnership process. Evidence from educational audits is used to determine the suitability of practice learning

environments. Any risk to student practice learning is robustly managed and monitored. Assurance is provided that risk is effectively managed to ensure student protection in practice learning environments and public protection.

The SFNME, the SSSA and the Standards for pre-registration nursing programmes (SPNP) (NMC, 2018) are not met as conditions apply.

The programme is recommended to for approval subject to two NMC conditions. One NMC recommendation is made.

Update 26 May 2021:

The UoW has provided documentary evidence which demonstrates the two NMC conditions are met. The SFNME, SSSA and SPNP are now met. The programme is recommended to the NMC for approval.

Partnerships
<p>The AEI works in partnership with their practice learning partners, service users, students and all other stakeholders.</p>
<p><b>Please refer to the following NMC standards reference points for this section:</b></p> <p><a href="#">Standards framework for nursing and midwifery education (NMC, 2018)</a></p> <p><b>Standard 1: The learning culture:</b>            R1.12 ensure programmes are designed, developed, delivered, evaluated and co-produced with service users and other stakeholders            R1.13 work with service providers to demonstrate and promote inter-professional learning and working</p> <p><b>Standard 2: Educational governance and quality:</b>            R2.2 all learning environments optimise safety and quality taking account of the diverse needs of, and working in partnership with, service users, students and all other stakeholders            R2.4 comply with NMC <a href="#">Standards for student supervision and assessment</a>            R2.5 adopt a partnership approach with shared responsibility for theory and practice supervision, learning and assessment, including clear lines of communication and accountability for the development, delivery, quality assurance and evaluation of their programmes</p>

R2.6 ensure that recruitment and selection of students is open, fair and transparent and includes measures to understand and address underrepresentation

R2.7 ensure that service users and representatives from relevant stakeholder groups are engaged in partnership in student recruitment and selection

**Standard 3: Student empowerment:**

R3.3 have opportunities throughout their programme to work with and learn from a range of people in a variety of practice placements, preparing them to provide care to people with diverse needs

R3.16 have opportunities throughout their programme to collaborate and learn with and from other professionals, to learn with and from peers, and to develop supervision and leadership skills

R3.17 receive constructive feedback throughout the programme from stakeholders with experience of the programme to promote and encourage reflective learning

R3.18 have opportunities throughout their programme to give feedback on the quality of all aspects of their support and supervision in both theory and practice.

**Standard 4: Educators and assessors:**

R4.7 liaise and collaborate with colleagues and partner organisations in their approach to supervision and assessment

R4.9 receive and act upon constructive feedback from students and the people they engage with to enhance the effectiveness of their teaching, supervision and assessment

R4.10 share effective practice and learn from others

**Standard 5: Curricula and assessment:**

R5.4 curricula are developed and evaluated by suitably experienced and qualified educators and practitioners who are accountable for ensuring that the curriculum incorporates relevant programme outcomes

R5.5 curricula are co-produced with stakeholders who have experience relevant to the programme

R5.14 a range of people including service users contribute to student assessment

[Standards for student supervision and assessment](#) (NMC, 2018)

**Standard 1: Organisation of practice learning:**

R1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments

R1.7 students are empowered to be proactive and to take responsibility for their learning

R1.8 students have opportunities to learn from a range of relevant people in practice learning environments, including service users, registered and non-registered individuals, and other students as appropriate

**Standard 2: Expectations of practice supervisors:**

R2.2 there is support and oversight of practice supervision to ensure safe and effective learning

**Standard 3: Practice supervisors: role and responsibilities:**

R3.3 support and supervise students, providing feedback on their progress towards, and achievement of, proficiencies and skills

**Standard 4: Practice supervisors: contribution to assessment and progression:**

R4.3 have sufficient opportunities to engage with practice assessors and academic assessors to share relevant observations on the conduct, proficiency and achievement of the students they are supervising

**Standard 7: Practice assessors: responsibilities:**

R7.9 communication and collaboration between practice and academic assessors is scheduled for relevant points in programme structure and student progression

**Standard 9: Academic assessors: responsibilities:**

R9.6 communication and collaboration between academic and practice assessors is scheduled for relevant points in programme structure and student progression

**Findings against the standard and requirements**

**Provide an evaluative summary about the effectiveness of the partnerships between the AEI and their practice learning partners, service users, students and any other stakeholders.**

We find effective working relationships between UoW, PLPs, EPs and SUCs, with evidence of collaborative programme development. The programme team, PLPs/EPs and SUCs tell us of plans for continuing co-production of the programme.

Senior representatives from EPs tell us of the partnership arrangements they have with UoW, and their shared responsibility for delivery of the programme and student learning in theoretical and practice learning environments. However, we found no evidence of written commitment statements to confirm this. (Condition one)

There's a joint approach to recruiting to the programme and management of its delivery involving PLPs/EPs and SUCs. The apprenticeship routes have employer-led recruitment and joint interviews with UoW. SUCs tell us, and documentary evidence confirms, that SUC involvement in the recruitment and selection of students is well established. There's a SUC engagement strategy with an identified UoW SUC co-ordinator. SUCs tell us they're prepared for their role in contributing to the programme through an induction programme facilitated by the SUC co-ordinator. SUCs are involved in curriculum delivery and student assessment. They

take part in face-to-face teaching with students. SUCs tell us they're involved in classroom-based teaching, sharing their stories and experiences and the positive responses from students. They tell us of the effective communication with the school and report being well supported with debriefings following their input to programme delivery.

UoW works in partnership with other AElS and PLPs/EPs in the region to develop a shared plan and training programme for the preparation of practice supervisors and practice assessors to support the implementation of the south PAD.

The south PAD facilitates the involvement of SUCs in providing feedback for students. There's documentary evidence that SUCs have been involved in the design and co-production of the programme. SUCs tell us they feel listened to and treated as equal partners in the programme.

Documentary evidence and discussion at the modification visit confirm there are enough appropriately qualified practice supervisors, practice assessors and academic assessors to provide support for the assessment of skills and proficiencies.

There's documentation that details the roles and responsibilities of academic assessors, UoW practice link lecturers, practice supervisors and practice assessors who support the student practice learning experience. They tell us they understand their roles and responsibilities and tell us they work in partnership to ensure robust and consistent implementation of the SSSA.

There's evidence of the use of consistent and objective criteria for the approval of practice learning environments. Biennial educational audits are carried out in partnership between UoW and PLPs/EPs using the Wessex wide learning environment audit tool. The programme team and PLPs/EPs tell us of robust communication with other AElS in the region to share information on CQC reporting and audit outcomes.

UoW practice link lecturers support students in practice learning environments. Tripartite meetings take place in the practice learning environment between students, UoW practice link lecturers and practice assessors at the mid-point and end point of each practice placement.

Module leaders facilitate student evaluation and feedback on modules in theory and practice. Students tell us of the effective partnership with academic staff; they're listened to and changes to the programme are made in response to their feedback, for example module content. Students tell us they take part in curriculum development groups, including the design and development of the proposed routes. This is confirmed by documentary evidence. The process for raising and escalating concerns is contained in student facing documentation and guides for practice assessors and practice supervisors. Meetings between students and module leaders are held at the end of module delivery to evaluate each module.

Module leaders are available by appointment to discuss any issues or concerns. Student cohort representatives, including NDA students, meet with academic staff at the student staff liaison committee to feedback on the student experience and address any issues or concerns.

### Student journey through the programme

#### Standard 1: Selection, admission and progression

**Approved education institutions, together with practice learning partners, must:**

- R1.1 Confirm on entry to the programme that students:
  - R1.1.1 are suitable for their intended field of nursing practice: adult, mental health, learning disabilities and children's nursing
  - R1.1.2 demonstrate values in accordance with the Code
  - R1.1.3 have capability to learn behaviours in accordance with the Code
  - R1.1.4 have capability to develop numeracy skills required to meet programme outcomes
  - R1.1.5 can demonstrate proficiency in English language
  - R1.1.6 have capability in literacy to meet programme outcomes
  - R1.1.7 have capability for digital and technological literacy to meet programme outcomes.
- R1.2 ensure students' health and character are sufficient to enable safe and effective practice on entering the programme, throughout the programme and when submitting the supporting declaration of health and character in line with the NMC's health and character decision-making guidance. This includes satisfactory occupational health assessment and criminal record checks
- R1.3 ensure students are fully informed of the requirement to declare immediately any cautions or convictions, pending charges or adverse determinations made by other regulators, professional bodies and educational establishments, and that any declarations are dealt with promptly, fairly and lawfully
- R1.4 ensure the registered nurse responsible for directing the educational programme or their designated registered nurse substitute are able to provide supporting declarations of health and character for students who have completed a pre-registration nursing programme
- R1.5 permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes, up to a maximum of 50 percent of the programme and comply with Article 31(3) of Directive 2005/36/EC (included in annexe one of programme standards document)
- R1.6 for NMC registered nurses permit recognition of prior learning that is capable of being mapped to the *Standards of proficiency for registered nurses* and programme outcomes that may be more than 50 percent of the programme

R1.7 support students throughout the programme in continuously developing their abilities in numeracy, literacy, digital and technological literacy to meet programme outcomes, and

R1.8 ensure that all those enrolled on pre-registration nursing programmes are compliant with Article 31(1) of Directive 2005/36/EC regarding general education length as outlined in annexe one in programme standards document.

MET  NOT MET

R1.5 is met. UoW has an established recognition of prior learning (RPL) policy. Documentary evidence confirms that RPL is used for up to 50 percent of the programme to meet NMC requirements for RPL. This is compliant with Article 31(3) of Directive 2005/36/EC. Mapping documentation confirms that RPL is capable of being mapped to the programme outcomes. There's a UoW guide to RPL for each route of the programme which details roles and responsibilities of those involved in the RPL decision making process. Information on RPL is available for prospective students. Applicants are required to present RPL evidence which is assessed by the admissions tutor and programme leader. This is then scrutinised by the external examiner before presentation to an assessment board prior to applicants commencing the programme. RPL claims are managed on an individual basis and applicants are supported through the RPL process by the admissions tutor and programme leader.

### Standard 2: Curriculum

**Approved education institutions, together with practice learning partners, must:**

R2.1 ensure that programmes comply with the NMC *Standards framework for nursing and midwifery education*

R2.2 comply with the NMC *Standards for student supervision and assessment*

R2.3 ensure that programme learning outcomes reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.4 design and deliver a programme that supports students and provides exposure across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.5 state routes within their pre-registration nursing programme that allows students to enter the register in one or more of the specific fields of nursing practice: adult, mental health, learning disabilities or children's nursing

R2.6 set out the general and professional content necessary to meet the *Standards of proficiency for registered nurses* and programme outcomes

R2.7 set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing

R2.8 ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice

R2.9 ensure the curriculum provides an equal balance of theory and practice learning using a range of learning and teaching strategies

R2.10 ensure that programmes delivered in Wales comply with legislation which supports use of the Welsh language

R2.11 ensure pre-registration nursing programmes leading to registration in the adult field of practice are mapped to the content for nurses responsible for general care as set out in Annexe V.2 point 5.2.1 of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R2.12 ensure that all pre-registration nursing programmes meet the equivalent of minimum programme length for nurses responsible for general care in Article 31(3) of Directive 2005/36/EC (included in Annexe 1 of programme standards document)

R2.13 ensure programmes leading to registration in two fields of nursing practice are of suitable length to ensure proficiency in both fields of nursing, and

R2.14 ensure programmes leading to nursing registration and registration in another profession, are of suitable length and nursing proficiencies and outcomes are achieved in a nursing context.

- There is evidence that the programme complies with the NMC *Standards for student supervision and assessment* (R2.2) YES  NO
- Mapping to show how the curriculum and practice learning content reflect the *Standards of proficiency for registered nurses* and each of the four fields of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.3) YES  NO

**Provide an evaluative summary from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.**

- There is evidence to show how the design and delivery of the programme will support students in both theory and practice to experience across all four fields of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.4) MET  NOT MET

R2.4 is met. Module descriptors detail the ways the programme supports students in theory and practice across the four fields of nursing practice. Generic and field specific modules are taught across all parts of the programme.

The UoW placements manager and PLPs/EPs confirm there's practice learning opportunities for students to experience the four fields of nursing practice. Students tell us they're supported in theory and practice to experience all four fields of nursing practice. Documentary evidence confirms, and the programme team tell us, that school academic staff have a range of clinical backgrounds in all four fields of nursing practice to support student learning across the lifespan and diverse settings relevant to the programme. Suitably qualified external examiners are identified.

- Evidence that programme structure/design/delivery will illustrate specific fields of practice that allows students to enter the register in one or more specific fields of nursing practice. Evidence of field specific learning outcomes and content in the module descriptors (R2.5)

MET  NOT MET

R2.5 is met. Unchanged since original approval on 2 September 2019 and subsequent major modification on 17 June 2020.

**Evidence provides assurance that the following QA approval criteria are met:**

- There is evidence that mapping has been undertaken to show that the programme meets NMC requirements of the *Standards of proficiency for registered nurses* (R2.6)

YES  NO

- There is evidence that mapping has been undertaken to set out the content necessary to meet the programme outcomes for each field of nursing practice: adult, mental health, learning disabilities and children's nursing (R2.7)

YES  NO

**Provide an evaluative summary from your documentary analysis and evidence AND discussion at the approval visit to demonstrate if assurance is provided that the QA approval criteria below is met or not met.**

- There is evidence that mapping has been undertaken to ensure that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation is included for entry to the register in one or more fields of nursing practice (R2.8)

MET  NOT MET

R2.8 is met. There's evidence of mapping in the programme design ensuring that field specific content in relation to the law, safeguarding, consent, pharmacology and medicines administration and optimisation are included in the NDA routes. The programme team and students tell us, and documentary evidence confirms, these are applied via module delivery. There's evidence these subjects are applied to field specific content. This content is assessed in practice in the south PAD.

- The programme structure demonstrates an equal balance of theory and practice learning. This is detailed in the designated hours in the module descriptors and practice learning allocations. A range of learning and teaching strategies are detailed in the programme specification, programme handbook and module descriptors with theory / practice balance detailed at each part of the programme and at end point. There are appropriate module aims, descriptors and outcomes specified. There is a practice allocation model for the delivery of the programme that clearly demonstrates the achievement of designated hours for the programme detailed. (R2.9)

MET  NOT MET

R2.9 is met. An appropriate and detailed range of learning and teaching methods are presented in the documentation. All modules in the programmes include

appropriate academic level aims, learning outcomes and module content. The programme and module aims are mapped to the SFNME. There's a practice learning allocation model, managed by the UoW placements manager, which ensures students have access to a range of risk-assessed practice learning environments which take into account the 24-hour nature of delivery of nursing care. EPs and PLPs tell us students undertake a range of working hours in practice learning environments covering 24 hours and including weekends. Students confirm this. The programme team tell us, and documentary evidence confirms, the designated hours needed to meet NMC requirements comprises 50 percent theory and 50 percent supernumerary practice learning and this demonstrates an equal balance of theory and practice learning for all routes. NDA students' supernumerary practice learning is at all times outside of the student's normal place of employment. Students tell us they are always supernumerary in practice learning.

**Evidence provides assurance that the following QA approval criteria are met:**

**MET**  **NOT MET**

R4.2 is met. There's a structured plan to implement the SSSA for the programme. Information about the SSSA is explicit in the programme specification and student facing documentation. The roles of the practice link lecturer in providing support for students in practice learning and their practice supervisors and practice assessors are defined. Practice supervisors and practice assessors understand their role and role preparation process for supporting students undertaking the proposed routes. NDA students are allocated an independent practice assessor outside of their normal place of work for supernumerary practice learning. UoW works in partnership with other AElS and PLPs/EPs in the region to develop a shared plan and training programme for the preparation of practice supervisors and practice assessors to support the implementation of the south PAD. Practice supervisors and practice assessors are prepared for their roles in supporting the student experience by jointly run workshops from UoW and PLPs/EPs.

The south PAD records student learning, assessment and progress throughout the programme. It provides practice learning guidance and assessment requirements which map to the SPNP. Practice assessors record their decisions on student assessment, progress and proficiency in the south PAD. We find academic assessors are prepared for their role by UoW which supports continued professional development of academic staff. Details of the practice assessor and practice supervisor roles in supporting students in practice are included in student facing documentation. There's evidence of the allocation of different academic assessors in each stage of the programme.
