Glossary

Last Updated: 29/10/2026

Approved Education Institutions (AEIs): the status awarded by the NMC to an institution, or part of an institution, or combination of institutions that works in partnership with practice placement and work placed learning providers. AEIs will have provided us with assurance that they are accountable and capable of delivering NMC approved education programmes.

Co-produced: when an individual influences the support and services received, or when groups of people get together to influence the way that services are designed, commissioned and delivered, acknowledging that people who use social care and health services (and their families) have knowledge and experience that can be used to help make services better. Co-production is one of the principles of the Care Act 2014.

Educators: in the context of the NMC standards for education and training educators are those who deliver, support, supervise and assess theory, practice and/or work placed learning.

Equalities and human rights legislation: prohibits unlawful discrimination on the basis of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation and other characteristics. Anti-discrimination laws can be country specific and there are some legally binding international protections.

Learning environments: includes any environment in terms of physical location where learning takes place as well as the system of shared values, beliefs and behaviours within these places.

People: individuals or groups who receive services from nurses and midwives, healthy and sick people, parents, children, families, carers, representatives, also including educators and students and others within and outside the learning environment.

Practice learning partners: organisations that provide practice learning opportunities necessary for supporting pre-registration and post-registration students in meeting proficiencies and programme outcomes.

Quality assurance: NMC processes for making sure all AEIs and their approved education programmes comply with our standards.

Reasonable adjustments: changes in the way services are offered to prevent students with disabilities from being placed at a substantial disadvantage, ensuring a fair and equal chance of accessing services as set out in equalities and human rights legislation.

Supernumerary: see Standards for student supervision and assessment and specific programme standards.
